

SPEED CLIP ADAPTERS

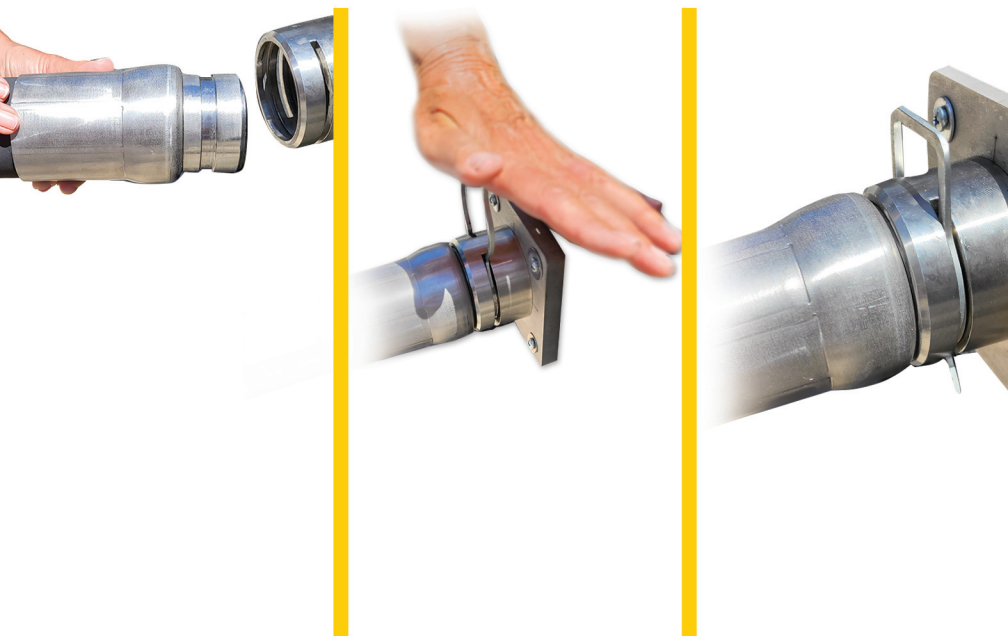

CYBOR PRODUCTS Speed Clip adapters are produced with 304 stainless steel and are engineered to replace cumbersome, heavy, cast iron double bolt clamps. The **CYBOR GRIP** grooved hose nipple is inserted into the **CYBOR-LOC SPEED CLIP** body, be sure it bottoms out, slide the clip into the slots that are cut both sides of the adapter. Push clip until it snaps into place.

Only used with **CYBOR-GRIP** hose nipples, We added the 37° JIC style style angle to center the nipple and to prevent side loading.
